

SUPREME

AIRJET

High Speed
HEPA Filter
Energy Efficient

HEPA Filtration & Antimicrobial Coating

SteriTouch antimicrobial technology in the plastic molded components and epoxy painted covers, to inhibit mould, bacteria and fungus growth and a hygienic HEPA filter to help remove contaminants in the air while drying hands.

Refined Acoustics

Quieter with three sound mode settings, at just 69dBA @2m, the Airjet's optimised high performance motor uses only 950W of energy, offering refined acoustics within sensitive areas.

Robust, Slim & Stylish

At only 10cm deep the Airjet is slim on the wall - perfect to complement your sophisticated washroom space.

ADA Compliant

Suitable for accessible washrooms.

SPL

SUPREME

AIRJET

Quiet, fast and ultra-hygienic - SPL's Supreme AIRJET delivers a state-of-the-art hand drying experience.

The Airjet's stylish slimline design is matched with refined acoustics and an energy efficient high-performance motor to complement any washroom space.
