

SUPREME

JET DRY EX II

Fast Dry Time
Energy Efficient
HEPA Filter

HEPA Filtration for Hygienic Environment

Triple antibacterial HEPA filter prevents the spread of bacteria and viruses, keeping the unit clean and ultra hygienic. Smart LED Indicates when time to change filter.

Approved for Food & Beverage Industry

Certified food-safe and suitable for use in facilities that operate in accordance with a HACCP based Food Safety Programme.

Advanced Jet Technology

Faster dry time and lower power use saves money and reduces your carbon footprint.

Water Collection Tray

Eliminates water on the floor - the smart LED indicates when its time to empty.

SUPREME

JET DRY EX II III

With an impressive dry-time of 10 - 12 seconds, SPL's Supreme Jet Dry Executive 2 delivers optimal 'air-blade' performance.

HACCP Food Safe Certification makes the Jet Dry the safe choice for washrooms in the food and beverage setting.
