

SUPREME

MASTER AIR

Whisper Quiet
Slimline Design
Easy to Use

Whisper Quiet

At only 60 dBA, the Master Air is quieter than most on the market, ideal where low sound levels are a prerequisite.

Slimline Design

Extending just 130mm from the wall, its slender form is a feature making it ideal where space is a premium. Great option for compact space or single cubicle toilets.

Colour Options Available

Contemporary subtle colours or stainless steel option will add a sophisticated presence to your rest room area, without making a strong statement.

Easy to Use with Light Assitance

Reflective infrared sensor with blue light assist makes it easy to use in poorly lit areas.

SPL

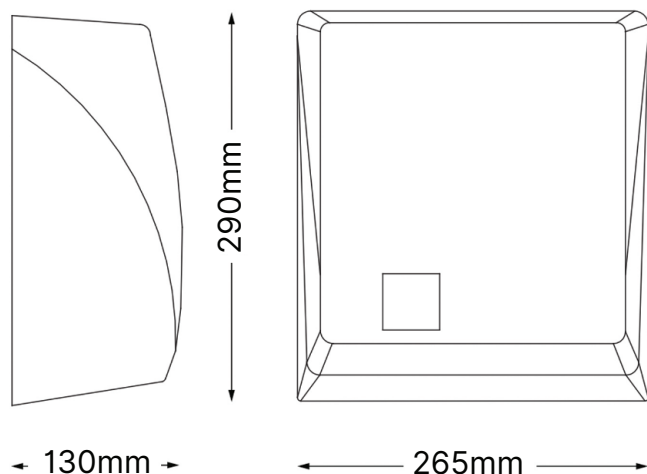

SUPREME

MASTER AIR III

Supreme Master Air offers contemporary styling and quiet performance in a slim design, ideal for space-conscious washrooms.

Its unique low and slow warm air delivery ensures optimum noise control, making it perfect for sound-sensitive areas.
