### EFFICIENT AND ECONOMICAL

- Automatic hygienic rinse
- Prevents the transmission of germs
- Protects from vandalism
- Water & energy efficient

## XIBU SENSOR TAPS

The Xibu sensor tap range are efficient, economical, hygienic, safe, comfortable and convenient. The sensor taps allow water to be available whenever it is needed and inhibits any unnecessary water consumption with need orientated technology. The transmission of germs is also prevented while the robust all-metal design aids in protection from vandalism. The standardised parts makes for quick and cost effective servicing and repairs.

### WATER IS PRECIOUS

*Our "blue planet" is covered to 71% with water. Though, only 3.5% is fresh water and only a fraction, around 0.3%, is available as drinking water. We better be very careful with our resources!*
