

SUPREME

WALL SHIELD

Sound Softening Properties
Prevents Redecoration

**Prevents
Redecoration**

Covers holes and marks, saving repair time and money. Great for transitioning from paper towels, a recessed dryer or "hands-in" to a "hands-under" dryer.

**Sleek
& Stylish**

Adds a design feature to the space whilst providing an additional layer of protection on the wall.

**Sound Softening
Properties**

The Maxi shield reduces through wall noise via a foil faced, mass loaded vinyl noise barrier, so is ideal for dryers mounted on walls beside offices or shops.

SUPREME

WALL SHIELD

Supreme Wall Shields offer a sleek and stylish cost-effective solution for covering unsightly holes in washrooms when transitioning from a 'hands-in' to a 'hands-under' style hand dryer.

An extra layer of protection to the wall is provided plus the Maxi shield offers unique sound softening properties as an added bonus.
